Partner Motivation Platform (svoy.alfabank.ru)

MLM partner network for bank product sales (33,700 MAU / 8,300 DAU). Owned motivation calculation engine: ETL + NRT pipelines (Kafka) across 30+ internal data marts, 9-level partner hierarchy. Zero-tolerance domain — calculations are irreversible by business design.

- Full-cycle ownership: discovery with product teams, business owners and agents → business logic → production release.
- Delivered Debit Card 2.0 — complete rebuild of motivation methodology for the top-selling product: 100+ tasks, 60+ people in cross-functional working group, launched on schedule with 0 IT incidents.
- 5,759 applications processed on the new methodology from day one of launch.
- NRT pipeline: data display lag reduced 6 days → 1 day (utility payments) and 4 days → 1 day (NTB & Debit Card applications).
- Redesigned agent-client binding logic → support tickets per case reduced 30 → 1–2.
- Team: 6 data engineers, 3 system analysts, 2 QA engineers.

Leroy Merlin (LemanaPro)

● Senior Product Manager

May 2023–Mar 2024 · 11 mos

Procurement Platform (Internal)

Internal platform: inventory forecasting, order placement, lost sales analytics. Managed ML team backlog alongside core dev team.

- Discovery: structured interviews with replenishment specialists, warehouse managers and business stakeholders.
- Automated 89% of orders — zero manual adjustments.
- 90% SKU availability (~30K SKUs) in peak season; cut lost sales ~1M RUB/day.
- GMV growth 2.3× in peak season via algorithm tuning.
- Delivery timeline tracker → –50% manual workload.
- Mentored 1 junior PM; led cross-functional squads (dev + ML + analytics).

● Product Manager

Dec 2021–May 2023 · 1 yr 6 mos

HRTech Platform (Internal)

Full-cycle WFM for warehouses & sorting centres: time tracking, payroll, outsourcing, compliance.

- Mapped the full employee journey via interviews with warehouse staff, HR managers and outsource leads.
- Biometric access on all warehouses → fraud reduced ~2M RUB/month.
- Outsource service coefficient module → ~3M RUB/month cost savings.
- Outsource personal account → –35% staff workload.
- Online training module → 2× faster shift onboarding.
- Payroll disputes –89%; automated medical check-ins.
- Led team: 1 PM + QA; cut dev load 2× via support process.
